

# Tiny Trainable Instruments - User Guide

---

Note: This user guide is incomplete, but this is the form it will take when it is mailed out to users. It will be updated further when the software is more refined.

Your materials:

- 1x Arduino Nano 33 BLE Sense microcontroller with headers
- 1x Solderless breadboard
- 1x Micro USB Cable
- 1x Piezo buzzer
- 1x Micro servo motor

Assembly:

Place the Arduino microcontroller on the breadboard
